LINUX PLUMBERS CONFERENCE September 20-24, 2021

Dynamic MSI-X and IMS opens

Dynamic MSI-X

- Enable allocation of MSI-X after probe phase (no longer one shot)
- New API: int pci_add_msix_irq_vector (struct pci_dev *dev)
- Should be called only after pci_alloc_irq_vectors() or variants

- Patches: https://github.com/intel/idxd-driver/tree/intel_dynamic_msix

IMS opens

1. Support multiple formats for interrupt messages

2. IMS PASID programming
