KEYNOTE: What a long, strange trip it's been….

Monday, 20 September 2021 11:00 (1 hour)

This year is the 30th anniversary of the Linux Kernel project, and for most of you the history of the Linux Kernel is well known. While this talk will honor much of that, it also hope to also bring in the histories of other projects that affected Linux and Computer Science, with recognition of the past, humor of the present and looking forward to the future.

I agree to abide by the anti-harassment policy
