

GCC's -fanalyzer option: what's new in GCC 12

Monday, 20 September 2021 07:00 (30 minutes)

I'll be talking about the -fanalyzer static analysis option I added to GCC:

- overview of the analyzer and its internal implementation
- what I've changed so far for GCC 12
- my plans for further development of the analyzer

("Prepared project report": 25 minutes, including questions)
