nouveau in the times of nvidia firmware and open source kernel module

Tuesday, 13 September 2022 17:45 (45 minutes)

This talk will look at the recent NVIDIA firmware release and open source kernel module contents, define what exists, what can happen.

It will then address the nouveau project and what this means to it, and what sort of plans are in place to use what NVIDIA has provided to move the project forward.

It will also discuss possible future projects in the area.

I agree to abide by the anti-harassment policy
