Multi-Gen LRU: Current Status & Next Steps

Monday, September 12, 2022 11:45 AM (30 minutes)

- Latest performance benchmark results on ARM64 servers and POWER9
- How to make MGLRU the default for everyone
- How to use MGLRU page table scanning to reclaim unused page-table pages
- A BPF program built on top of MGLRU to create per-process (access) heat maps

I agree to abide by the anti-harassment policy

Yes
