Pluggable scheduling: SCX and ghOSt

Wednesday, 14 September 2022 15:00 (1h 30m)

Google and Meta are both investing in frameworks for implementing pluggable schedulers, ghOSt and SCX respectively. This BoF will discuss both frameworks, and how we can best tackle the scheduling problems that the frameworks are trying to solve.

I agree to abide by the anti-harassment policy

Yes
