

Linux Plumbers Conference 2022

Monday, September 12, 2022

LPC Refereed Track - "Lansdowne" (10:00 AM - 6:30 PM)

time	[id] title	presenter
10:00 AM	[58] PREEMPT_RT - how not to break it.	SIEWIOR, Sebastian
10:45 AM	[44] Launching new processes with `io_uring_spawn` for fast builds	TRIPLETT, Josh
11:30 AM	Break	
12:00 PM	[101] Exercising the Linux scheduler with Yogini	BROWN, Len
12:45 PM	[62] OS Scheduling with Nest: Keeping Tasks Close Together on Warm Cores	LAWALL, Julia
1:30 PM	Lunch	
3:00 PM	[46] RV: where are we?	BRISTOT DE OLIVEIRA, Daniel
3:45 PM	[115] Modularization for Lockdep	FENG, Boqun
4:30 PM	Break	
5:00 PM	[169] Make RCU do less (save power)!	FERNANDES, Joel KADAM, Rushikesh REZKI, Uladzislau
5:45 PM	[51] Restartable Sequences: Scheduler-Aware Scaling of Memory Use on Many-Core Systems	DESNOYERS, Mathieu

Tuesday, September 13, 2022

LPC Refereed Track - "Lansdowne" (10:00 AM - 6:30 PM)

time	[id] title	presenter
10:00 AM	[15] How I started chasing speculative type confusion bugs in the kernel and ended up with 'real' ones	KOSCHEL, Jakob
10:45 AM	[136] Profiling data structures	CARVALHO DE MELO, Arnaldo
11:30 AM	Break	
12:00 PM	[56] Inside the Linux Kernel Random Number Generator	DONENFELD, Jason
12:45 PM	[49] Live in a world with multiple memory types	Mr HUANG, Ying
1:30 PM	Lunch	
3:00 PM	[124] Kernel Live Patching at Scale	LIU, Song VAN RIEL, Rik VERNET, David
3:45 PM	[140] TCP memory isolation on multi-tenant servers	WARLOE, Christian BUTT, Shakeel WANG, Wei
4:30 PM	Break	
5:00 PM	[34] Meta's CXL Journey and Learnings in Linux	ZHANG, Jonathan
5:45 PM	[139] nouveau in the times of nvidia firmware and open source kernel module	AIRLIE, David
