

Linux Plumbers Conference 2023

Contribution ID: 95

Type: **not specified**

RCU Office Hour

Tuesday, 14 November 2023 09:30 (45 minutes)

This is a gathering to discuss Linux-kernel RCU-related topics, both internals and usage.

The exact topics depend on all of you, the attendees. In 2018, the focus was entirely on the interaction between RCU and the -rt tree. In 2019, the main gathering had me developing a trivial implementation of RCU on a whiteboard, coding-interview style, complete with immediate feedback on the inevitable bugs. The 2020, 2022, and 2023 editions of this BoF were primarily Q&A sessions.

Come (on-site if you can, otherwise virtually) and see what is in store in 2023!

Primary author: MCKENNEY, Paul (Facebook)

Presenter: MCKENNEY, Paul (Facebook)

Session Classification: Birds of a Feather (BoF)

Track Classification: Birds of a Feather (BoF)
