

Linux Plumbers Conference 2024

Contribution ID: 297

Type: **not specified**

IOMMUFD and Generic Page Table

Wednesday, 18 September 2024 11:00 (30 minutes)

A brief iommufd update and time for any active discussion that needs resolution.

A discussion on Generic Page Table which should reach the mailing list as RFC before the conference. Generic Page Table consolidates the page table code in the iommu layer into something more like the MM with common algorithms and thin arch specific helpers. Common algorithms will allow implementing new ops to solve some of the open problems people have.
