

Linux Plumbers Conference 2024

Contribution ID: 270

Type: **not specified**

Improving kernel design documentation and involving experts

Friday, 20 September 2024 17:50 (20 minutes)

This session is meant to:

- introduce why it is important to document the Kernel design, (especially in safety systems)
- introduce the current process to document the Kernel design
- discuss about potential improvements and how to involve more experts in writing and maintaining the documentation
