Linux Plumbers Conference 2024

Thursday, 19 September 2024

Real-time MC - "Hall N2" (15:00 - 18:30)

time	[id] title	presenter
15:00	[187] Did you behave in real-time? A probabilistic evaluation with trace data	Mr BIELMEIER, Benno
15:22	[274] Walk the line - how RT-safe application design can be supported	KISZKA, Jan
15:44	[74] On going development in rteval to measure real-time latency	KACUR, John
16:06	[259] QPW: How to improve latency and CPU Isolation without cost	SOARES PASSOS, Leonardo Bras
16:28	[264] Improving guest latency & throughput by improving RCU in KVM	SOARES PASSOS, Leonardo Bras
16:36	Break	
17:02	[354] IPI deferral	SCHNEIDER, Valentin
17:24	[261] Demystifying Proxy Execution	STULTZ, John
17:46	[304] Using DL servers for FIFO tasks starvation avoidance	LIMA DE SOUZA CASCARDO, Thadeu
18:08	[276] Current overview of PREEMPT_RT	SIEWIOR, Sebastian
