

Outreachy Internship Report: Refactoring backlight and spi helpers in drm/tinydrm

Wednesday, October 2, 2019 4:10 PM (20 minutes)

In this talk, I will briefly describe my contributions as an outreachy round 15 intern. Broadly, I worked on refactoring code in the tinydrm subsystem. Specifically, I refactored the backlight and the spi helper functions.

Code of Conduct

Yes

GSoC, EVoC or Outreachy

Yes
