

ieee802154 and rpld updates

Thursday, 27 August 2020 09:20 (40 minutes)

This session will give an update on what happened in the ieee802154 and 6lowpan subsystems since the last LPC IoT microconf. In addition it will present the newly added non-storing mode of our RPL Linux implementation, rpld.

I agree to abide by the anti-harassment policy
