

BoF: Extensible Syscalls - Checking for Supported Features

Friday, 28 August 2020 07:00 (45 minutes)

Based on the kernel summit talk “Extensible Syscalls” we want to continue the discussions around checking for supported features in syscalls. There were various proposals in the room that would be interesting to discuss in detail and come to a conclusion what would work best!

I agree to abide by the anti-harassment policy

I agree

Presenters: SARAI, Aleksa (SUSE LLC); BRAUNER, Christian (Canonical)

Session Classification: BOFs Session
