

Linux Plumbers Conference 2020

Friday, August 28, 2020

Power Management and Thermal Control MC - Microconference2/Virtual-Room (7:00 AM - 11:00 AM)

time	[id] title	presenter
7:00 AM	[M162] Energy Model evolution possibilities	LUBA, Lukasz
7:25 AM	[M20] Powercap energy model based	LEZCANO, Daniel
7:50 AM	[M153] Remote offline of a CPU through Hardware Feedback Interface to increase system TDP	PANDRUVADA, Srinivas
8:15 AM	First break	
8:30 AM	[M152] Thermal: Use of running average of temperature for thermal thresholds	PANDRUVADA, Srinivas
8:55 AM	[M119] Functioning temperature range - Warming devices	GOPINATH, Thara LEZCANO, Daniel
9:20 AM	[M116] Performance improvements in power-sharing scenarios	WYSOCKI, Rafael JEREZ, Francisco
9:45 AM	Second break	
10:00 AM	[M117] Power management of interdependent devices	WYSOCKI, Rafael BALUTA, Daniel
10:25 AM	[M119] Suspend/Resume Quality, and Performance	BROWN, Len
